

SolarWall® systems are available in a wide range of “Hot-Colors” to allow for maximum design flexibility.

**Note:** The colors below are for profile SW150 / 150R. Standard Finish: WeatherXL®. Optional PVDF Finish available for 24 gauge Black only. **Not all colors available in both gauges;** refer to the information below.

## Standard Colors

**Black** Solar Absorptivity 0.95  
SW56068 - Gauge 26, 24

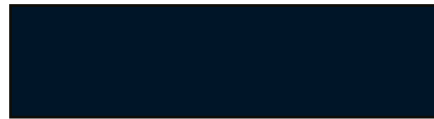

**LSR Dark Brown** Solar Absorptivity 0.95  
SW55039 - Gauge 26

## Other Available Colors

**Heron Blue** Solar Absorptivity 0.77  
SW56079 - Gauge 26

**Navy Blue** Solar Absorptivity 0.88  
SW56084 - Gauge 24

**Deep Water Green** Solar Absorptivity 0.77  
SW56083 - Gauge 24

**Royale Blue** Solar Absorptivity 0.78  
SW56081 - Gauge 26

**Green** Solar Absorptivity 0.74  
SW56078 - Gauge 24

**Pacific Turquoise** Solar Absorptivity 0.73  
SW56156 - Gauge 24

**Charcoal** Solar Absorptivity 0.71  
SW56072 - Gauge 26, 24

**Tile Red** Solar Absorptivity 0.66  
SW56066 - Gauge 26

**Tan** Solar Absorptivity 0.65  
SW56074 - Gauge 26, 24

**Regent Grey** Solar Absorptivity 0.62  
SW56082 - Gauge 26

## Optional PVDF Finish

**Black PVDF** Solar Absorptivity 0.96  
SW9400 - Gauge 24

**Dark Brown** Solar Absorptivity 0.85  
SW56062 - Gauge 26, 24

**Metro Brown** Solar Absorptivity 0.76  
SW56154 - Gauge 26, 24

**Slate Blue** Solar Absorptivity 0.72  
SW56067 - Gauge 24

**Bright Red** Solar Absorptivity 0.62  
SW56080 - Gauge 26, 24

**Dark Green** Solar Absorptivity 0.91  
SW56073 - Gauge 26

**Note:** Color appearance will vary depending on monitor and/or printer calibration; before placing an order you may request a metal sample for accurate color representation
